MAIN BUILDING.

TEACHERS' HOME.

GIRLS' DORMITORY.

General Information.

Establishment.

THE HENDERSON NORMAL INSTITUTE is a school established and conducted to afford the colored people an opportunity of obtaining a good education. It is a part of the missionary work of the United Presbyterian Church, which has always taken a deep interest in the welfare of the colored race. Having opposed slavery as a principle, it was natural that as soon as slavery was abolished this church should show its interest in the future of the freedmen by doing what it could for their moral and intellectual development. In 1862, while the clouds of war hung heavy over the whole land, it began its educational work for the newly freed slaves. The first school was established in Nashville, Tenn. Schools have since been established in many places and churches organized. The members of the church in the North have given freely of their means to support the work and to afford the colored people an opportunity of rising and enjoying the blessings and advantages which God has opened to all in this free land. The United Presbyterian church gives each year nearly $68,000 in money, besides many contributions in other forms, to carry on the work it has undertaken for the colored perple.

Location.

Henderson is situated in the north central part of North Carolina, and is a flourishing town with a population of about 6,000 inhabitants. Its white citizens are distinguished for enterprise and sturdy character. The climate is free from malaria, salubrious and unsurpassed for healthfulness. The town has excellent railroad accommodations, being on the Seaboard Air Line and Southern Railways. It contains a

first class electric light plant, a telephone exchange and a fine system of water works, and numerous manufacturing establishments. The Western Union and Postal Telegraph Companies and the Southern Express Company have offices in the town.

Buildings.

The COLLEGE occupies a beautiful site just outside the corporate limits.

The MAIN BUILDING contains chapel, reading room, printing office, study hall, and recitation rooms. The chapel has seating capacity for 700 persons, and each room is commodious, well lighted, ventilated and provided with many of the modern equipments for school work.

The GIRLS' DORMITORY is a large L-shaped two-story building, containing matron's office, reception room, kitchen, dining room, laundry and bed-rooms. This building has a new annex, expressly built for the accommodation of young ladies who desire to board.

The BOYS' DORMITORY is a two-story structure for the accommodation of young men who board. The rooms in this building compare favorably with the apartments in the young ladies' annex. The rooms are spacious and well adapted for comfort and convenience. Near this building is a large two-story building used for the young men who wish to cook for themselves. This building provides apartments for sixty young men. Each of these rooms contains a bed stead, cooking stove, and table. No rent is charged for the use of these rooms, but an entrance fee of $1.00 will be charged to cover incidental expenses.

The TEACHERS' HOME occupies a commanding place near the center of the large campus. This house is very beautifully located and surrounded by a nicely arranged flower plot.

The INDUSTRIAL BUILDING is situated half way between the Girls' Hall and the Main Building. This building contains the sewing department.

MISCELLANEOUS.—In the above, reference is only made to the more important buildings of the institution.

Several acres are given up for recreation grounds.

To preserve the health and promote the physical development of the students, out door exercise is encouraged and cordial support is given to athletic sport. The large campus affords ample grounds for the College baseball diamond and football field, besides the space set aside for croquet grounds. All students are encouraged to take an active part in one or other of these sports, bnt the idea that athletics should hold first place in school life is not tolerated.

The drainage of the grounds is perfect. On part of the premises is planted an orchard of apple, peach, pear, cherry, plum and quince trees. Still another part is used for farming, gardening, and pasturage for stock.

Religious Privileges.

The daily sessions of the College includes a service of singing, reading of scripture, and prayer. All students, without exception, are required to be present at this service. Regular weekly prayer meetings are held on Wednesday night. Sabbath School is held in the College chapel on Sabbath afternoon, and a preaching service is held at the church on Sabbath nights. The students find ample fields for christian work in connection with the Ladies' Missionary, Young People's Christian Union, and the Junior Societies. All students are given daily instruction in biblical lessons and history.

Literary Societies.

To aid the students in cultivating literary tastes, and to train them in the expression of their thoughts, and also to teach them the form of parliamentary procedure, societies are organized and maintained. The pupils in each room above the primary grades constitute the membership of a society. All the pupils in the room are expected to take part in the exercises. The teachers supervise the work of the society to secure as good results as possible for the pupils. The societies have proved very helpful in the past and afford an excellent opportunity for training in work which will be of advantage to the pupils in after years.

Home Training.

We shall endeavor to make this training of our students a most valuable part of their education. By regular inspection of rooms, we hope to inculcate habits of tidiness and taste in the arrangements of articles of furniture. To our students we give special attention in order to train them in matters pertaining to dress, health, physical development, and the simple rules of etiquette. The girls are under the constant care of the matron and other lady teachers, and are not permitted to leave the grounds unless accompanied by some teacher. All are taught that expensive wearing apparel is not only unnecessary, but that the institution wants nothing but good, plain clothing. Calicoes, ginghams and plain worsteds neatly made, and colored underskirts, are best for school use. By drills, under an instructor, the young men are given physical exercise and trained to bear themselves well. They thus form habits of prompt obedience and courteous, manly deportment.

All students will be required to share equally the work of keeping the buildings and grounds in good condition.

The Boarding Department.

is conducted as a Christian home. The discipline is parental in character and aims to develop Christian manhood and womanhood. The rules are few, and in general those of a well regulated household, and are administered with firmness and impartiality. Each student is required to give an hour a day, on the average, to some form of labor, as directed by the College. This is conducive to good health and right habits, and renders it possible to keep the price of board at a lower rate than could otherwise be done.

Industrial Department.

Sewing.

For ten years a Sewing Department has been maintained in connection with the school. The purpose of this department is to teach all the girls in the school to do plain sewing,

and to cut and make their own garments. A competent teacher gives her whole time to this department, and from 120 to 150 girls, in seven classes, receive instruction nearly one hour each day. During the year many hundred garments are made, and these are sold to the pupils for the cost of the materials.

In this department all the girls' uniforms are made. Each girl making her own uniform under the direction of the teacher.

The past year basketry has been introduced, and many are doing good work in this line.

Cooking.

In the kitchen of the boarding department instruction is given not only in proper methods of preparing food for the table, but in the nature and nutritive value of the various articles in common use for food, and in their comparative cost.

How to spend money wisely and economically in the purchase of provisions for the household is a question which deserves much more attention than is usually given to it. Health and prosperity are often sacrificed through the want of knowledge on this subject.

Printing.

An Industrial Department has been added for the boys. The colored people are making rapid progress in knowledge, and taking a more intelligent interest in business and politics. In consequence they are beginning to publish their own papers; and each year the papers published by them and in their interest, will increase. There will therefore be openings for practical printers. It is important for the best interests of the race that these papers should be conducted by good men—men who have a Christian training. The object of this department is to give several students each year a practical training in the work.

A small monthly paper is published by this department in the interest of the school. It gives much information each month about the school, and other good, helpful reading It is sent to subscribers for only 25 cents a year. The department also does job work at low rates.

Musical Department.

Vocal Music.

Special instruction and concert practice in chorus, glee, quartette, and solo singing will be continued through the coming session. Vocal music will be given in all departments free of charge.

Instrumental.

Instruction upon the piano will be given for $1.00 per month, including the use of instruments,

Clothing and Uniform.

It is of greatest importance that students be properly clothed; not only is it necessary to the preservation of their health, but it is valuable in teaching them economy and correct ideas of dressing. *All* students in the Dormitories therefore *are required* to purchase and wear uniform designated by the faculty. This uniform is required as a matter of economy and to improve the appearance of the students as a body. Circumstances of some students make it possible for them to obtain much more expensive clothing than is possible for others. This difference in dress causes a feeling of caste, and frequently results in many students remaining out of school because they cannot compete, in dress, with the some more favored student. The uniform, then, prevents this undue attention to the subject of dress, and at the same time cultivates taste and neatness.

Parents are requested not to provide new outer garments for their daughters before sending them to school, but to invest the money in uniform, which will be made by the students in the sewing department at a cost of $4.50, and cap at 75 cents.

Young men over 15 years of age are likewise requested not to purchase any new clothing during the vacation, but to save their money until they return to school, when neat uniform suits and caps will be provided at a cost not exceeding $11.00 for each outfit. If the student has a pair of suitable trousers he may be required to get only the blouse and cap.

Rules.

THINGS REQUIRED.

1. Registry of names at the office, getting a permit to class.
2. Attendance on prayers each school day.
3. Strict observance of study hours, retiring at 10 P. M.
4. Strict observance of the Sabbath, attendance on public worship thrice a day.
5. Promptness in all exercises and classes.
6. All rooms must be put in order before 9 A. M.
7. Respectful behavior to teachers and all others.
8. All regulations to be strictly observed.
9. Excuse will be granted for no absence, except for the student's severe sickness, and that must be obtained from the office before the student attends recitation again.
10. Each student must have a good, portable, Reference Bible; also a medium sized English dictionary, rubber overshoes or boots, rubber garments, and an umbrella. Young ladies must have these articles. If they do not bring them they will be required to get them here. Health and economy demand them, and health alone is wealth. Dampness of shoes and clothing lay the consumptive on his death bed. For the want of a dollar umbrella a twenty dollar suit is ruined in one shower, while a 50 cent pair of rubbers will double the

life of a pair of shoes. To remain at home when it storms, cheats us out of much valuable time. Suitable storm clothing meets the whole case, and gives health and wealth.

THINGS FORBIDDEN.

1. Unpermitted association of ladies and gentlemen, communication in writing between them, or visits to the halls or rooms of the other.

2. Leaving the school or the institution without permission.

3. Leaving the school without the consent of the teacher and Principal.

4. *Absence from the room during study hours.*

5. Boisterousness, dancing, running in the building, singing in the halls at any time, or in the rooms during the hours of study.

6. Games of chance, profane or indecent language; the use or possession of tobacco, snuff, intoxicating liquor, or of weapons of any kind.

7. Calling, conversing or throwing from the windows.

8 Injuring or defacing the buildings or other property, either of school or others.

9. Removal of furniture or bedding out of the building or from one room to another.

10. Leaving lamps burning during an absence from room of more than fifteen minutes; carelessness about stoves, or having a large fire after 9 o'clock, P. M.

11. No light literature is allowed among the students.

12. Vistors cannot be received during school, or study hours by students, and gentlemen, unknown to the Matron or Principal, will not be permited to see lady students at any time, unless they bring letters of introduction from parents or guardian to the Matron or Principal, and, then, subject to the discretion of the Principal.

13. Students cannot entertain other students, their friends or strangers in room over night without permission from Superintendents.

14. Students cannot receive or make call on Sabbath, unless under unusual circumstances.

Day scholars are subject to the same rules as boarders, respecting studies, attendance and behavior.

Person unwilling to keep these rules are invited not to come. Violations will be punished by penalties in accordance with the gravity of the offense.

Expenses.

Henderson Normal Institute aims to make it possible for every young man or woman of energy and perseverence to secure a good education. The charges to the students are practically nominal and in no respect meet the actual cost of the advantages furnished them Contributions from the church pay all the salaries and equipments.

Expense of Boarders.

FIRST TERM—12 WEEKS.

Entrance Fee, - - - - $1.00

Board, fuel, light, room, $4.00 per month; per term, $12.00

Students paying a full term in advance save $1.50. The term for $12.00. Paying by the month in advance, $4.50.

Four weeks considered a school month.

Expense of Self Boarders.

We still have the arrangements for self boarders. This arrangement is to accommodate those who can furnish their own provisions.

A room, cook stove and bed stead are furnished. Students furnish all else necessary for their comfort. *Entrance fee* and tuition the same as in boarding department.

We urge students as far as possible to enter the boarding department, since there is very little, if any difference in the cost

Self boarders will be charged 20 cents a week for wood or 75 cents for four weeks if paid in advance.

* NOTE.—In these subjects the mode of study is founded on the examination of subjects, with a constant aim of developing the habit of observation.

Department of Literature.

English Literature.

The Course of English Literature takes the student over the history of the subject as found in Painter's English Literature. The idea is to give the student an historical prospective of the literature of his own tongue. The work is not confined to the text book alone, but in addition, students are required to look up important subjects. Special attention is paid to the great authors.

The class next year will study with the instructor, Shakespeare's "Hamlet," "Romeo and Juliet," and "Macbeth;" two books of Milton's "Paradise Lost," Dryden's "St. Cecilia's Day;" Pope's "Rape of the Lock;" Goldsmith's "Deserted Village," and "The Traveler;" Burns' "Cotter's Saturday Night" and shorter poems; Wordsworth's "Ode on Immortality," and Tennyson's "Locksley Hall," "The Princess," and "In Memoriam." Besides the class work, the students will be required to spend extra time in reading some of the longer productions from standard authors and to hand in original essays on what they have read.

The aim in teaching this branch is to create a strong desire for the best literature.

American Literature.

The course in American Literature is conducted along the same lines as that of the English, or more properly speaking, British Literature. Such works have been taken up in a class as Irving's "Rip Van Winkle" and "Legend of Sleepy Hollow;" Hawthorne's "Rill from the Town Pump," "Lady Eleanore's Mantle;" Poe's "The Tell-Tale Heart," "The Premature Burial;" "The Fall of the House of Usher;" Bryant's "Thanatopsis" and "The Flood of Years;" Longfellow's "Evangeline; Lowel's "Sir Saunfal," and "Indian Summer Reverie;" "The Chambered Nautilus," "Bill and Joe"
